

## Instruction for installation of firmware for Rollei Actioncam S-50 WiFi

1. Save the file „Rollei\_S-50\_WiFi\_V1.15.zip“ on your computer.
2. Extract the file „Rollei\_S-50\_WiFi\_V1.15.zip“.  
If your computer does not recognize the zip-file, then please download the free program for extracting zip-files from [www.filzip.de](http://www.filzip.de).
3. Copy the extracted file „Firmware\_\_V1.15.bin“ on to a formatted memory card.
4. Insert the memory card in your camera. The camera must be turned off. Class 6 memory cards or higher are recommended.
5. Power on the camera.

**Attention: Please make sure the camera will not be switched off during the update procedure. Do not take out the memory card. Consequential damages are not covered under the terms of warranty.**

6. Press and hold the “<”-Button until the menu appears. Please switch to “Settings” in the menu and choose “Firmware Update”: Next press the OK-Button on the camera.
7. On the screen the prompt “Firmware update?” will appear. Choose “●” and confirm by pressing the OK-Button to execute. To cancel this step, please select “X” and confirm by pressing the OK-Button.
8. During the firmware update the prompt „Processing...” will appear for approximately 20 seconds on the monitor.
9. If you are prompted with the note “Processing...” for more than 60 seconds during the Update, please release the battery and repeat the Update starting from step 5.
10. Once the new firmware is installed on the camera the device will automatically shut down. You can now eject the memory card with the firmware.
11. Please turn on the camera once more and switch to the menu. Next switch to “Settings” and choose “Default” to perform a system reset.

Please be advised, that you lose the guarantee, if the camera will be damaged due to an incorrect installation of the firmware. Install exactly step by step as described in this instruction. Of course you can send the camera to our service. We will then install the firmware on to the camera for you. How to send the camera to our service you can read on your guarantee card.
